

# Voluson™ family of products

A healthier future for women

We are committed to creating a healthier future for women. So we create ultrasound solutions that enhance the connection between our clinical partners and their patients, and work relentlessly to break new ground and advance innovation in women's health. And we do it all with the goal of empowering our partners to provide the kind of exceptional care that will exponentially improve women's lives, and ensure better health for generations.

Whether you specialize in OB/GYN, Assisted Reproductive Medicine, or Maternal Fetal Medicine, Voluson systems fit virtually any budget and solve for your clinical needs.

## Voluson Product Family

## ViewPoint™

Patient reporting and archiving system

## Digital Expert Connect

Virtual connection.  
Real-life impact.

### Are you ready to enhance your image quality?

Voluson ultrasound systems offer tools such as Speckle Reduction Imaging, that helps improve contrast resolution, and CrossXBeam™, to enhance border definition and image clarity.

### Take the work out of workflow

The more your system can do, the more efficient and consistent your patient studies can be. Artificial intelligence and automation tools such as SonoLyst, SonoFHR, and SonoBiometry help increase exam speed and accuracy to streamline your day. Scan Assistant is a customizable tool that gives you the ability to help increase exam consistency.

### Connect and share images easily and securely

ViewPoint optimizes the archiving of images, volumes, and structured reports through efficient digital connectivity.

GE HealthCare has partnered with Trice Imaging to provide an integrated cloud based solution called Tricefy™ which allows you to archive and share your images and reports securely with colleagues and patients from any mobile phone, tablet, laptop or computer.

### Virtual, real-time collaboration

Digital Expert Connect lets clinicians easily consult and collaborate within their network anytime, anywhere.

### Count on responsive service and support

**Financing options** can be tailored to fit your individual cash flow needs, whether you are looking to own, lease, and/or trade in an older system.

**Online remote support** and on-site service support help ensure optimal system performance day after day.

**Clinical and technical education** along with training and support help you provide the highest quality of care and achieve operational excellence.

**Join the VolusonClub** and gain access to tools and resources to enhance your knowledge of system operation and learn techniques to help you improve productivity. Learn. Network. Share at [www.volusonclub.net](http://www.volusonclub.net)
